SUPPLY OF NUMBERS IS OUT

The fifteenth of February is th deadline for automobile owners have their 1918 keenses. After this time, the local police force will be on the lookout for machines, with a 1917 license and see to it that it is changed for a new one. If the owner of the car has merely forgotten to apply for a license, he will have to do so at once. Or if he has applied for a license and the number plates have not been received, he will have to present an affidavit to that effect.

Local notary publics who have been making out the licenses have received word from Secretary State Roach that the supply of numbers has been exhausted and until a new supply is received, which is expected at any time, applicants will have to be patient. In view of this fact the police force will be a little more lenient although there will be James Brown, Ralph Clarkson. New Draft Regulations Received Here do Not Order Rejected Men to be Re-examined

EXAMINATIONS MAY BE BEGUN

Some Radical Changes Made in Physical Qualifications-Must Reject no Feet Cases

Copies of the new regulations governing the physical examination of registrants for the national army received by the county selection board, contain no clause providing that men rejected under the old regulations shall be called for re-examination under the new standards for physical fitness.

The local board presumed that men rejected would be subject to another physical test under the new regulations, as it would seem unfair to reject men under one set of regulations and hold for service others who might have the same defects, but were examined under the less stringent regulations.

It was for this reason that the board, when an order was recaved to discontinue physical tests, told registrants already called for examination that they need not be examined unless they wanted to until the new regulations arrived, and explained to rejected men that they would likely be called for re-examination. But since orders have been received to resume the examinations and no specific instructions are contained in the regulations to recal. rejected men, they will not be called back unless another order comes to have them recalled.

There are now less than ten men in class one ready for physical examinations and none will be call! until rulings are received from t.: district board on many cases appealed or sent to the board because of agricultural claims.

"In view of the contemplation," say the new regulations, "of a further investigation and classification of registrants physically qualified for special and limited military ser vice, who have not the physical qualifications for general military service, and in view of the decision to accept some registrant for gen eral service only when the registrant comes within the standards of unconditional rejection.

Fairview Community Club Imposes Fee of 50 Cents a Family to Pay the Expenses

PRIZES WILL BE AWARDED

Club Meets Thursday Night and Hears Addresses on Subjects Relative to Winning War

Subjects pertaining to the winning of the war from the farmers standpoint were the features of the meeting of the Fairview community club that vicinity attended the meeting.

The club is making prelimnary plans for pig and corn clubs to be started among the young people of Never Put the community in the spring when prizes for the best entries in the shows will be given. For this purpose a membership fee of fifty cents a family has been imposed on the members of the organization.

Subjects relative to the winning of the war were discussed by A. E. Morrison, county agent of Fayette county; Prof. E. R. Jeffery, principal of the Fairview school; James K. Mason and Rev. G. F. Powers, after which Thomas Richardson, cashier of the Gelnwood bank, discussed the income tax and explained several parts of the law which were not clear to people who will pay the tax.

The next meeting of the club will be held March 1, when A. E. Lieter, Fayette county food administrator will appear on the program.

A. L. Stewart, County Enrolling Agent Will Make Special Effort to Secure Ship Builders

MUST BRIDGE THE ATLANTIC

A. L. Stewart, county enrolling agent for the United States Public Service Reserve, is making preparations to have Rush county take part in the great enlistment drive which will be made through the country next week. Although the drive will be for mechanics in every department of the service, a special effort will be made to secure ship builders.

"It is necessary that we bridge the Atlantic with ships," emphasized Director Stewart. "Therefore in enlisting in this branch of the government work, a man is serving his country with as much loyalty as the man who goes into the trenches

Information regarding transportation, wages and housing will be given the men desiring to enlist after they have registered with the county agent. The registration is purely voluntary and after securing the information concerning the work the registrant is not forced to enlist unless he desires to do so.

TAKE SALTS TO*

Eat less meat if you feel Backachy or Bladder troubles you—Salts is fine for Kidneys.

Meat forms uric acid which excites and overworks the kidneys in their efforts to filter it from the system. Regular eaters of meat must flush the kidneys occa-sionally. You must relieve them like you relieve your bowels; removing all the acids, waste and poison, else you feel a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging you to get

up two or three times during the night. To neutralize these irritating acids and flush off the body's urinous waste get about four ounces of Jad Salts from any pharmacy; take a table-spoonful in a glass of water before breakfast for a few days and your kidneys will then act fine and bladder disorders disappear. This famous salts is made from the acid of grapes and lemon juice, com-bined with lithia, and has been used for perations to clean and stimulate sluggish kidneys and stop bladder irritation.

Jad Salts is inexpensive; harmless and
makes a delightful effervescent lithiawater drink which millions of men and women take now and then, thus avoiding serious kidney and bladder diseases:

Mr. Robert Williams Galesburg, Mo.

December 27th, 1917.

You are right when you say in yours of December 24th that Senreco is a remarkably good tooth paste and that it has a strong story to tell, but the difficulty lies in putting that story in such language as will convince the public.

The Senreco story of a medicinal paste that not only cleanses the teeth but also keeps mouth and gums healthy, when put on paper does not sound very different from the story of just any ordinary dentifrice.

For that reason we make every effort to get the people to try Senreco. After that Senreco tells its own story - and fully 90% of them are Senreco users and boosters from then on.

There is a Senreco user in Pittsburgh who has introduced our product into the families of thirty-four of his friends. Enthusiasm? No. not entirely. Simply a case of Senreco making good. It is just as stated above. If they will try Senreco - if they once become acquainted with a real dentifrice - with what a dentifrice can and should be - they are Senreco boosters from that time on.

MRS CARRIE MARTIN and

Miss Vera Clifton is the guest of State Bakers Decide It Will Contain Percent Substitutes for White Flour

ENFORCED FEBRUARY 25TH

Bakers Must Use Substitutes or Supply of White Flour Soon be Exhausted

All Victory bread shall contain Guy Brook was a business visitor 25 per cent of substitutes for white flour since the decision to that effect at the state meeting of bakers held at the Claypool Hotel in Indianapolis this week when Mr. and Mrs. A. W. Wilkinson and W. W. Weakley from this city attended the meeting.

Beginning now bakers are to start using substitutes in bread and by February 25 the substitutes are to amount to 25 per cent of the white flour used. After that date and until the new wheat crop comes in all bread that goes by the name of "Victory Bread" shall be made after his strict regulation.

From the bakers standpoint as well as the standpoint of conservation, this step is necessary for bakers this year are receiving only 70 per cent of the white flour that they received last year. Unless they use the proper amount of substitutes to start on, their supply of white flour will be exhausted and they will be forced to use substitutes alone. Earlier, the strict rules were made to apply to concerns which used over ten barrels a month. Seeing that many restaurants, hotels and smaller bakeries did not come in this class the restrictions were made to cover all establishments using more than three barrels of flour monthly.

The bread sold by bakers on 'Wheatless Days' do not have to be made entirely from substitutes, according to the ruling made at the neeting of bakers. Any bread that comes under the rules of "Victory Bread" may be sold on these days. The strict rules forbidding the exwere listed for the time being at least for the sugar shortage is not so acute as it was at one time. Bakers were asked to be conservative and economical in the use of sugar in all doughs.

Rye flour is not classed as a substitute that may be added to white bread for bread can be made from that flour alone. Barley flour is the chief substitute recommended for adding to wheat flour in making white bread. All licensed bakers are given extensive reports to make out on the amount of flour and substitutes they have used and on these reports final rulings will be based.

One of the local bakeries has started using the 25 per cent substiutes in all of their breads and the other bakery is coming to the change gradually, announcing that by February 24 all bread will contain the required amount of substitutes.

British Admiralty Still Estimates Casualties on The Tuscania at 210. However

SCANT NEWS AT WASHINGTON

Dispatches Still Leave 113 U. S. Soldiers Unaccounted For-Comb Coast for Survivors

(By United Press.)

Belfast, Feb. 8.-The Tuscania death roll may be reduced by 133 through landing of survivors at other points on the Irish and Scotish coasts, it was said here this afternoon. The British admiralty estimates of casualties is 210.

Undaunted by their experience in the torpedoing of the ship, American soldiers buckled down today to preparing themselves for revenue against the Huns on the front in France.

Two trainloads of survivors were sent to the military camp "somewhere in Great Britain," where the will undergo training as soon as the equipment lost on the Tuscania has been replaced.

Washington, Feb. 8.—Despite the fact that more than two days have elapsed since the German U-toat sank the Tascania, this government arrack and only confused figures on

the missing.

Disparches to the war department leuve au lost 113 American soldiers, and 97 of the passengers and crew of the vessel—a total of 210.

Navy department cables state today that a total 2,035 have been landed at various points on the 1rish and Scotish coast, leaving troops, passengers and crew unaccounted for.

Of those landed 99 were reported in hospitals and assurances has teen tha Cox. The petition of Mary E. forwarded here that all are being cared for.

The list cannot be completed, it is now believed for several days.

The coast of the British Isles is being combed for information from TWO CARS OF COAL fishermen and townsmen in the belief that more will be added to the list

London, Feb. 8.—That Germany had information of the coming of the Transport Tuscania and other vessels with important personages aboard was the belief expressed today by passengers on ships which accompanied the torpedoed trans

One distinguished person from another ship who witnessed the attack said 3 torpedoes were fired at his vessel later Tuesday night. He declared his belief that the U-boat was acting upon information obtained through the German spy system.

British naval crafts continued search today for bodies of the victims. Hope of finding other survivors has been abandoned.

DEADLINE IS SET FOR

Owners of Machines Must Have New Numbers by February 15 or Expect Call From Police

SUPPLY OF NUMBERS IS OUT

The fifteenth of February is the deadline for automobile owners to have their 1918 Reepses. After this time, the local police force will be on the lookout for machines, with a 1917 license and see to it that it is changed for a new one. If the owner of the car has merely forgotten to apply for a license, he will have to do so at once. Or if he has applied for a license and the number plates have not been received, he will have

to present an affidavit to that effect. Local notary publics, who have been making out the licenses have received word from Secretary of State Roach that the supply of numbers has been exhausted and until a new supply is received, which is expected at any time, applicants will have to be patient. In view of this fact the police force will be a little more lenient although there will be no excuse for those who have not made applications for licenses.

They were found by the police in possesson of a woman's coat suit and a silk underskirt which Mrs. Rowe alleged belonged to her. They are said to have entered the house while Mrs. Rowe was away.

ANOTHER STAR ADDED TO HIGH SCHOOL FLAG

Hubert Alexander Joins Aviation Service and Demonstration is Given For Him Today

SHORT TALK BY SUPT. SCHOLL

Another star will be added to the service flag at the local high school as the result of Hubert Alexander, son of Mr. and Mrs. W. A. Alexander, west of the city, enlisting in the aviation department as a truck driver. He enlisted at the recruiting headquarters in Indianapolis yesterday and left this afternoon for the training camp at Columbus, O...

/ A patriotic demonstration resulted at the high school this morning when it became known Alexander, who was a member of the junior class, had tendered his services to Uncle Sam. He was among the most popnlar students at the high school and the entire school | joined enthusiastically in giving nine rousing cheers for the young soldier, after which J. H. Scholl gave a short falk, praising the spirit which had caused another high school hoy to take up the fight for the country.

SECOND INDIANA IS NOT TO BE CALLED

Contention of Local Board Recruits in Unit Should Not be Put in Class 5 Upheld

RULING OF PROVOST MARSHAL

Men in the Second Indiana artiflery, of which there are 14 from this locality although only five within examination and classification the draft age, will not be exempted given out by Lient. Col. Hugh S. Johnson, deputy provost marshalclassifications because of the order class where they belong regardless of the enlistment in the Second Indiagn. The Indianapolis district board and several others have held that they should be in class five.

The remaining men who have enisted in the unit organized here are either over or under the draft age. Colonel Johnson gives as his reason for the order that placing men in this unit in class five would be tantamount to granting them exemption for the period of the war since it was manifestly not the purpose, of the war department to call any newly, organized national guard unit into/the federal service.

The five men who have enlisted in the Second Indiana and come within the draft; nger are Byron Cowing. Gartin has been James Brown, Ralph Clarkson. Parry Hendricks and Leslie Trobugh

Copies of the new regulations governing the physical examination of registrants for the national army received by the county selection board, contain no clause providing

that men rejected under the old regulations shall be called for re-examination under the new standards for physical fitness. The local board presumed that

nen rejected would be subject to another physical test under the new regulations, as it would seem unfair to reject men under one set of regulations and Hold for service others who might have the same defects. but were examined under the less stringent regulations. It was for this reason that the

board, when an order was received to discontinue physical tests, told registrants already called for examinntion that they need not be examined unless they wanted to until the new regulations arrived, and explained to rejected men that they would likely be called for re-examination. But since orders have been received to resume the examinations and no specific instructions are contained in the regulations to recal rejected men, they will not be called back unless another order comes to have them recalled.

There are now less than ten menn class one ready for physical examinations and none will be call? until rulings are received from the district board on many cases appealed or sent to the board became of agricultural claims.

"In view of the contemplation," say the new regulations, "of a further investigation and classification of registrants physically qualified for special and limited military service, who have not the physical qualifications for general military service, and in view of the decision to accept some registrant for gen eral service only when the regis rant comes within the s unconditional rejection.

"All other registrants must be referred by the local board to the medical advisory board for further.

A few radical changes are made from draft, since the order has been in the physical qualifications. The instructions are to "reject no foot cases," whereas a number of regisgeneral, that men who have enlisted trants have been rejected because of in this regiment should be put in flat feet. Acceptance of all regis class one or whatever class they trants above 78 inches in height properly belong. The local board when exceptionally well proportion will have no change to make in ed is ordered; also rejection of all registrants whose weight is less for they have already placed the than 100 pound unless it is plainly two men from the regiment in the due to some recent illness; Registrants between 100 and 114 pourits and between 58 and 60 inches in height must be referred to the medical advisory board. To be age to the registrant must have a winimum of six masticating teeth and six in of six massivereing jected on teeth defects,

THAT BAD BACK

Do you have a dull, steady ache in the small of the back sharp, stabbing twinges when stooping or lifting-distressing urinary disorders? For bad back and weakened kidneys Rushville residents recommend Donn's Kidney Pals. Read this Rushville statement.

Mrs. Joseph S. Endicott, 125 S Harrison St., says: "Sometimes I overdid at my housework or took cold and it was at just at such times as that, I had trouble with my back. My back would get so lame I was miserable and everything in the way of work wore me out. When stooping, sharp catches would seize me across the small of my back. Doan's Kidney Pills, which I got at PITMAN & WILSON'S Drug Store never failed to cure me of those attacks."

The club is making prelimnary plans for pig and corn clubs to be started among the young people of the community in the spring when prizes for the best entries in the Indiana Grocers put their stamp of shows will be given. For this purpose a membership fee of fifty cents a family has been imposed on the members of the organization.

Subjects relative to the winning of the war were discussed by A. E. Morrison, county agent of Fayette county; Prof. E. R. Jeffery, principal of the Fairview school; James K. After hearing a stirring message Mason and Rev. G. F. Powers, after which Thomas Richardson, cushier of the Gelnwood bank, discussed the income tax and explained several parts of the law which were not clear to people who will pay the tax.

The next meeting of the club will be held March 1, when A. E. Lieter, Fayette county food administrator will appear on the program. 🔻 🔪

ENLISTMENT DRIVE TO BE MADE NEXT WEEK

A. L. Stewart, County Enrolling Agent Will Make Special Effort to Secure Ship Builders

MUST BRIDGE THE ATLANTIC

A. L. Stewart, county enrolling agent for the United States Public Service Reserve, is making preparations to have Rush county take part in the great enlistment drive which will be made through the country next week. Although the drive will be for mechanics in every department of the service, a special effort will be made to secure ship builders.

"It is necessary that we bridge the Atlantic with ships," emphasized Director Stewart. "Therefore in enlisting in this branch of the government work, a man is serving his country with as much loyalty a the man who goes into the trenches and fights."

Information regarding transportation, wages and housing will be given the men desiring to enlist after they have registered with the county agent. The registration is purely voluntary and after securing the information concerning the work the registrant is not forced to enlist unless he desires to do so.

Dear Sir:

You are right when you say in yours of Decem ber 24th that Senreco is a remarkably good tooth pasts and that it has a strong story to tell, but the difficulty lies in putting that story in such language as will convince the public.

The Senreco story of a medicinal paste that not only cleanses the teeth but also keeps mouth and gums healthy, when put on paper does not sound very different from the story of just eny ordinary dentifrice.

For that reason we make every effort to get the people to try Sanraco. After that Senraco tells its own story - and fully 90% of them are Senraco users and boosters from them on.

There is a Senreco user in Pittsburgh who has introduced our product into the families of thirty-four of his friends. Enthusiasm? Bo not entirely. Simply a case of Senraco making good. It is just as stated above. If they will try Senraco - if they once become acquainted with a real dentifrice - with what a dentifrice can and should be - they are Senraco boosters from that time on.

Miss Vern Chiton is the guest of State Bakers Decide It Will Contain Percent Substitutes for White Flour

ENFORCED FEBRUARY 25TH

Bakers Must Use Substitutes or Supply of White Flour Will Soon be Exhausted

All Victory bread shall contain 25 per cent of substitutes for white flour since the decision to that effect at the state meeting of bakers held at the Claypool Hotel in Indianapolis this week when Mr. and Mrs. A. W. Wilkinson and W. W. Weakley from this city attended the meeting.

Beginning now bakers are to start ising substitutes in bread and by February 25 the substitutes are to amount to 25 per cent of the white flour used. After that date and until the new wheat crop comes in all bread that goes by the name of "Victory Bread" shall be made after this strict regulation.

From the bakers standpoint as well as the standpoint of conservation, this step is necessary for bakers this year are receiving only 70 per cent of the white flour that they received last year. Unless they use the proper amount of substitutes to start on, their supply. of white flour will be exhausted and they will be forced to use substitutes alone. Earlier, the strict rules were made to apply to concerns which used over ten barrels a month. Seeing that many restaurants, hotels and smaller bakeries did not come in this class the restrictions were made to cover all establishments using more than three barrels of flour monthly.

The bread sold by bakers on 'Wheatless Days' do not have to be made entirely from substitutes, according to the ruling made at the meeting of bakers. Any bread that comes under the rules of "Victory Bread" may be sold on these days. The strict rules forbidding the exwere listed for the time being at least for the sugar shortage is not so acute as it was at one time. Bakers were asked to be conservative and economical in the use of sugar in all doughs.

Rye flour is not classed as a substitute that may be added to white bread for bread can be made from that flour alone. Burley flour is the chief substitute recommended for adding to wheat flour in making white bread. All licensed bakers are given extensive reports to make out on the amount of flour and substitutes they have used and on these reports final rulings will be based.

One of the local bakeries has started using the 25 per cent substitutes in all of their breads and the other bakery is coming to the change gradually, announcing that by February 24 all bread will contain the required amount of substitutes.

Under Control Bill Report Recently Made to the Senate with Proposed Measures

MAKE USUAL DIBURSEMENTS

Washington, Feb. 8.—The govern ment will guarantee the railroads \$960,000,000 annually under the railroad control bill drawn by the interstate commerce committee. This estimate is made in a report of the committee to the senate along with the proposed measures.

"The averages of the past three-years," said the report, "reflects neither poverty nor riches." After most careful consideration the committee are of the opinion that the owners of the property would not be unlikely to receive an award from courts at least equal to proposed offers. It is therefore the duty of who sent flowers and letters of con- the congress to authorize the presi-

Mrs. Alva Beale of Bentonville Dies Hear of Uraemic Poisoning **But Bahy Lives**

EVERY EFFORT TO SAVE HER

Mrs. Alva Beale of Bentonville, upon whom a Caesarian operation had been performed when her baby daughter was born several days ago, died at the Dr. Sexton Hospital in this city last night at ten o'clock. Uraemic poisoning caused Mrs. Beale' death and very serious illness when she had gone totally blind. She was brought to the local hospital and the marvelous, operation which was performed restored her sight and it was thought would save the woman's life. Recently she had taken worse and though revery effort was made to save her, she died last night. The baby daughter is living.
